FIGmd

an MRO company

Polaris a FIGmd hosted registry

Take charge of your performance with Polaris, a simple and innovative approach for MIPS/MVP Reporting.

What is Polaris?

Polaris is a CMS-approved Qualified Registry (QR) that simplifies, automates, and optimizes clinical data quality reporting for a broad range of practices.

Polaris' MIPS/MVP application assists providers in reporting their best-performing measures to obtain the maximum Medicare payment adjustment.

Why Polaris?

- Polaris supports all active CQM and eCQM measures.

- Polaris supports MIPS/MVP reporting for all specialties.

- Seamless integration with 250+ Health IT systems.

- Supports participation in MIPS/MVP as an individual, group or sub-group.

- Compare measure performance to the CMS benchmark and your peers.

- View estimated scores for the Quality, Promoting Interoperability (PI), and Improvement Activities (IA) categories.

- Easily understand and rectify gaps with met/not-met drill down.

- Stay informed on category scores throughout the year, start concentrating on the quality of care, and adjust selections to improve performance.

Key Features

- EHR Interfacing
- Supports Health IT changes
- Integrates with multiple sources
- Add or remove providers or locations as needed
- CEHRT IDs Validation
- Understand gaps in care
- Measure selection assistance
- MIPS/MVP application with Quality, PI, and IA Modules
- MIPS/MVP scoring engine
- Category-level estimated performance tracking
- Submission history
- CMS audit Support
- Automatically supports updates/ changes to CMS reporting regulations
- Submit computed scores from the user interface (UI)
- MIPS/MVP data submission
- First dashboard availability in 6-8 weeks after integration*

∗ *Timelines vary based on EHR.*

Benefits

- Expert support for dashboards and measure performance.
- Supports extended timeline for practices to sign up.
- CMS Subject Matter Experts (SME) group to assist with measure and CMS compliance related questions.
- Allows manual data entry for participant convenience.
